LETTERS

Board Members Explain Position on Bond Issue

Certain statements were made by one of the local papers last week with reference to certain members of the Board of Supervisors for "adversely scheming to evade" calling an election by the people for the issuance of bonds to construct a county owned hospital.

We, those members of the board referred to in that article, wish to make our position clear before the public in this matter.

In seeking legislative approval for a bond issue, we are not attempting at this time to sell bonds.

Since all interested persons had agreed that a county owned hospital was for the best interest of the people, we contacted Mr. Walter James Phillips to seek legislation for a proposed bond issue to finance construction of such a hospital, with the knowledge of ALL MEMBERS of the Board.

I, Johnson Shaw, President of the Board, gave Mr. Phillips a letter authorizing him to begin work on this legislation as the time element was short and the Legislature would not meet again until 1955. The Board of Supervisors is privileged to call an election of any people for a bond issue at any time without a Legislative act under the General Laws of the State. However, such elections cost in the neighborhood of \$3,000 and the Board hoped by using legislation in lieu of an election to save tax payers the amount of money when a general agreement had been reached.

On Monday at the regular meeting it was the intention of this Board to have a resolution drawn up which Mr. Phillips would take to the Legislative body in Jackson. We did not stipulate any amount of bonds to be issued, but specified up to \$150,000. One member of this board strenuously objected to this legislation without calling an election of the people. His reasons for objecting were ruled out of order by the president of the Board as a special and private bill as well as a General Bill will permit the board to use its discretion in calling an election by the people. It is the thought of the other four members of this Board to call an election by the people if there is the slightest doubt in mind as to the advisability of the proposed construction of the hospital. We agreed with Mr. Phillips' proposal to reduce from the usual 20% to 10% of the qualified electors to contest such a bond issue. We said before it cost about \$3,000 to call an election, and the majority of this Board feels that the people who have elected them to office did so with the knowledge that to the best of our ability we would serve them. We cannot spend tax money at random calling elections for each and every discussion that arises. If we did so, then we would be sorely lacking in the very qualities that have elected us to office, namely confidence in our ability to serve our people wisely and well. We cannot use tax money at random and still have sufficient funds to operate the county for the best interests of our people.

It should also be known that the member of this Board who so strenuously objected to this legislation without calling an election was perfectly in accord with the issuance of \$70,000 worth of bonds for the construction of a hospital under the Hill Burton Plan, without calling an election of the people.

It is the opinion of the majority of this board that the people of Hancock County want a county financed and county operated hospital. It is also the opinion of the majority of the board that the people want to obtain such a hospital in the most economical

BOARD MEMBERS EXPLAIN POSITION ON BOND ISSUE

Financial services were held Monday afternoon from Faber Funeral Home for Edward Charles Fayard, 69, who died Sunday, March 13 at his residence in Kiln.

Religious services were held at 8 o'clock from Our Lady of the Gulf Church with interment in St. Mary's Cemetery.

The deceased was the husband of Mrs. Anna Heber Fayard, and was also survived by a stepson Theodore (Teddy) Stochmann and the late Henry Carl Stochmann of Bay St. Louis. He was the brother of Miss Emma Fayard, Mrs. Celine Ashcraft of Bay St. Louis, Otto Fayard of New Orleans and Gus Fayard of Atlanta, Ga. and Mrs. Jos. Parilla of Destrehan, La. Fayard suffered a heart attack at 5:30 a.m. Sunday morning and upon the arrival of his doctor at 6 a.m. was pronounced dead. He was employed by Dr. Charles Bannister as manager of the Chazelle Nursery, and was a specialist in raising and grafting camellias and azaleas.

Billy Breland, son of Mr. and Mrs. E. E. Breland is a patient at Foundation Hospital in New Orleans.

SURVEY SHOWS STATE GEARED TO ATTRACT METAL TYPE INDUSTRY
Mississippi not only can save metal fabricating manufacturers a 25 per cent reduction in labor costs but has sufficient manpower to staff 45 such plants employing 500 workers each. These findings are contained in a survey just completed for the Mississippi Agricultural and Industrial Board's industrial department by Henry V. Allen Jr., consulting engineer of Jackson. The study, second in a series, is entitled "Survey of Mississippi As A Location for A Metal Fabricating Plant."

The first of the series dealt with the advantages of the state as a manufacturing site for the apparel industry. A third survey now being prepared will cover the chemical industry.

Get a proved FORD V-8

Ford has built more V-8 engines than all other manufacturers combined over 14,000,000! And this tremendous reservoir of V-8 experience has enabled Ford to bring the new V-8 Ford V-8's for '55 in quantity ever made. The day the new Fords were put into production, as a result, you can have the finest V-8 in the low price field... a great new V-8 Ford V-8 without waiting!

Enjoy Ford's new **Trigger-Torque power!**

For '55, Ford offers two advanced V-8's: the 182-h.p. V-8 and the 152-h.p. V-8. Both of these mighty engines deliver Trigger-Torque power which gives you split-second starts—quicker passing—and top-notch performance at all speeds. And with Ford's high compression, low friction design and deep block construction, you can count on your Ford V-8 for smoother performance and longer engine life.

Take your pick from 16 brilliant new Ford Models
This year you can take your pick from 16 brilliant new Ford models... and your choice of an extra-wide variety of exciting new single and two-tone body colors and charmingly color-keyed interiors.

I See It

By DR. C. M. SHIFF

Ladies and gentlemen I want to tell you this morning about heart disease. Pick up any newspaper and note the prominent headlines that died with a heart attack. This is not a true picture because many less prominent folks die and they failed to make the headlines in that paper. The headlines in that paper are just as dead as if they were prominent. The only thing that may be said in my favor is that it was short and quick. No long drawn out affair with accompanying pain and suffering from a wasting and incurable disease. The sorry part of this is that so many of these people that died had plenty of warning of the impending danger to which they paid no heed. They have said, as so many before them have said, this cannot happen to me. Well, it can and often does. It ends in only one way, tragedy. The laws of average and the laws of providence never operate in your favor. The moral is don't take liberties with a heart that is already impaired. Now I am a young adolescent with a perfect heart, how should I treat it?

Let us consider these facts. Heart disease is the number one killer of the human race. It leads all other causes of death. The heart is the number one vital organ in the body. It represents our bank account in the laws of life. If we overdraw we become insolvent. None but the stupid would dare tamper with this bank account. Nature shows no relenting spirit with our misdoings. If you overdraw your deposit which is given to you in the start on life's long journey she is so exacting she shows no pity and will collect. That is her way of doing

GOVERNOR SHIVERS **MR. ROBERTS** **GENERAL CLARK**
 The general public is invited to attend the sixth annual meeting of the Mississippi Economic Council in Jackson on Tuesday, April 12th. The three featured speakers for the event are shown above. Governor Allan Shivers of Texas, staunch supporter of states' rights, will speak at the noon luncheon. O. H. Roberts, Jr., Evansville, Indiana, attorney and president of the National School Boards Association, Inc., will keynote the afternoon's forum on public education. A panel of Mississippians will assist Mr. Roberts during the question and answer period.

heart is to take the arduous and heavy exercise you can like the athlete and others competing in prowess and endurance. Work or play as the you had only one duty to do the job. Your heart will grow bigger under this sort of life. It has to do this in order to pump all the blood you will need. Let your heart get as big as your two fists. Doctors call it Carbosis or Bull heart. Then what happens you have a great big heart pumping a very little blood. Just like a brand new Chrysler engine hitched to a wheel barrow. The only thing that keeps it from running away is the governor. Yes the Good Lord took good care of this. Now what happens this big heart beats about forty times a minute instead of seventy two. Nature don't care for excess baggage and she tries to reduce the size of the heart by reducing muscle fibers. But in doing this she substitutes fat droplets for muscle fibers. The result is that you wind up with a weak fatty flabby heart and you can do nothing about it, just have to live with what you have created.

This is the usual picture that the doctor sees. The patient enters the office a little puffy under the lids and a hacking cough and he says Doc. That's a bad start for no doctor likes to be called Doc. It took seven years to get his degree along with oodles of money. He likes a little more dignity. Anyway the patient complains of being a little short of breath and a hacking cough. Says I got a little damp last night and caught a cold. This is not true for you don't catch a cold from dampness. You catch a cold from someone that has a cold just as you catch measles. If you have a cold the sensible thing to do is to go home and go to bed. All infectious diseases in the group of air born diseases will get well five times as fast if you go to bed. Stay up and fight it, walk around, this will give you a chance to scatter it to other people whatever you have. Stay up and waste what little energy and strength you have. Yes by all means stay up and going. By this you may get really sick. No treatment is better than the bed treatment whatever you have. Giving a catching disease to others don't help you one bit. So don't get the idea you can dilute your misery by sharing it with others. The doctor will strip the patient to the waist whenever they be, he don't want to fumble in the dark by listening to something he cannot hear nor feel for something he cannot see. We don't want people guessing on us when we are sick. Suppose we go back to that hacking cough. It might be like smallpox masquerading as measles. This rapid and shallow breathing is caused by the damming back of the body fluids in the lung vessels and plural cavity. We call it pulmonary edema caused by a weak muscular heart or impaired heart function. It is a reflex cough that has nothing to do with a cold.

What are the real danger signs and symptoms of discomfort that you are going to be subjected to?

PRESENT SECOND CHALLENGE
 Missions General Assembly, Fourth Degree Knights of Columbus, Bay St. Louis, Gulfport is presenting Bishop Gerow with a challenge to be used in the Diocese of Natchez at His Excellency's discretion. The challenge is given by the Assembly in memory of J. A. Quigley, Gulfport, recently deceased member, and is the second made available to Bishop Gerow since the plan was adopted last year. The first challenge was given in memory of A. A. Scalfie, of Bay St. Louis.

Report was made on the Assembly's Uniformed Honor Guard participation in ceremonies celebrating St. Joseph Academy's centennial and dedication of the roadside shrine on the grounds of St. Augustine's Seminary.

Discussions on the possibility of the Assembly sponsoring a Field Mass at a future date was a main topic of the business agenda during the regular monthly meeting held in Bay St. Louis Monday, Feb. 28.

It was decided that the annual social and banquet for members

...the Protestant group, 82 per cent of the men favored, 13 per cent opposed and 5 per cent had no opinion in the Catholic group; while 81 per cent favored, 16 per cent opposed with 3 per cent having no opinion in the Jewish group.

"National Commander Collins attempted to uproot the conviction that seems to be in the minds of our National Congressmen that NST is politically unwise when he presented The American Legion's NST plan to the House Armed Services subcommittee on Wednesday March 2. It is our belief that the percentages represented above would show a much greater balance in favor of this plan of providing the necessary military manpower of the Nation of everyone realized the unfairness of our present system.

"Our present ready reserve forces are made up largely of men who have seen active duty in one war and many of them in two while there is a vast manpower pool that has not even undergone any military training. We are inducting approximately one out of four of the youths of our land for two years of military training and saddling them with an extended reserve responsibility while we permit the other three to go free of any responsibility. The entire age group is kept in a state of suspense insofar as doing anything to establish themselves socially and economically and surveys among these indicate that they would prefer the more definite and more equally divided military responsibility.

"Considering the necessity for a strong trained reserve which we do not believe any informed person will have the temerity to deny the unfairness of our present system to the veterans constituting a large percentage of our reserve forces, to our youth in the training age group in subjecting them to a long period of uncertainty and insecurity and in finally training only one out of four of these along with the almost 100 per cent fairness of the American public support for such a program would almost be unanimous if we could remove the false obstacles and place only the true facts before them.

"We can't expect the same knowledge and understanding from the general public that we have in an organization that has been studying and working at this problem for approximately twenty years and we have the profoundest respect for the opinions of those who through misinformation and misunderstanding are sincerely opposed. We can't say so much for that group who for selfish and avaricious reasons oppose what they recognize to be fair, just and reasonable and who expend every possible effort to mislead others."

NOTES FORESTRY

by MARION PARKER AREA FORESTER

Forty forest fires in Hancock County burned 1,300 acres during the period March 1 through March 13, according to Area Forester Marion Parker. Hancock County's fire record compares with the same period last year.

Weather forecasters predict that rainfall during the month of March for this area will be about half of normal. Since March is usually windy and a time in which critical forest fire conditions exist, it is especially urged that extreme care be exercised with the use of fire in any manner. Fires in grass or woods land move with extreme speed under these dry and windy conditions. They can and do cause considerable damage to trees in our forest lands. Young trees are kindled in great numbers and older trees are damaged extensively in forest fires over the state and over Hancock County.

The Mississippi Forestry Commission operates 3 fire lookout towers in Hancock County. The Protestant group; 82 per cent of the men favored, 13 per cent opposed and 5 per cent had no opinion in the Catholic group; while 81 per cent favored, 16 per cent opposed with 3 per cent having no opinion in the Jewish group.

"National Commander Collins attempted to uproot the conviction that seems to be in the minds of our National Congressmen that NST is politically unwise when he presented The American Legion's NST plan to the House Armed Services subcommittee on Wednesday March 2. It is our belief that the percentages represented above would show a much greater balance in favor of this plan of providing the necessary military manpower of the Nation of everyone realized the unfairness of our present system.

...the Protestant group, 82 per cent of the men favored, 13 per cent opposed and 5 per cent had no opinion in the Catholic group; while 81 per cent favored, 16 per cent opposed with 3 per cent having no opinion in the Jewish group.

"National Commander Collins attempted to uproot the conviction that seems to be in the minds of our National Congressmen that NST is politically unwise when he presented The American Legion's NST plan to the House Armed Services subcommittee on Wednesday March 2. It is our belief that the percentages represented above would show a much greater balance in favor of this plan of providing the necessary military manpower of the Nation of everyone realized the unfairness of our present system.

"Our present ready reserve forces are made up largely of men who have seen active duty in one war and many of them in two while there is a vast manpower pool that has not even undergone any military training. We are inducting approximately one out of four of the youths of our land for two years of military training and saddling them with an extended reserve responsibility while we permit the other three to go free of any responsibility. The entire age group is kept in a state of suspense insofar as doing anything to establish themselves socially and economically and surveys among these indicate that they would prefer the more definite and more equally divided military responsibility.

"Considering the necessity for a strong trained reserve which we do not believe any informed person will have the temerity to deny the unfairness of our present system to the veterans constituting a large percentage of our reserve forces, to our youth in the training age group in subjecting them to a long period of uncertainty and insecurity and in finally training only one out of four of these along with the almost 100 per cent fairness of the American public support for such a program would almost be unanimous if we could remove the false obstacles and place only the true facts before them.

"We can't expect the same knowledge and understanding from the general public that we have in an organization that has been studying and working at this problem for approximately twenty years and we have the profoundest respect for the opinions of those who through misinformation and misunderstanding are sincerely opposed. We can't say so much for that group who for selfish and avaricious reasons oppose what they recognize to be fair, just and reasonable and who expend every possible effort to mislead others."

LEADS "ALL 3" IN VALUE!

TOP TWO ENGINES Plymouth's PowerFlow 117 engine is the smoothest, thriftiest six in the lowest-price field, with exclusive Chrome-Sealed Action that adds years to its smooth, whisper-quiet operation. And Plymouth's new 167-hp Hy-Fire is the most powerful standard V-8 in the low-price 3. Both engines thrive on regular, NOT premium, fuel.

NEWEST STYLING Of all 3 low-price cars, only Plymouth's styling is completely and honestly new. Its fleet, forward-looking lines mean this Plymouth will look "new" years from now, and have a higher trade-in value. And, of all 3, only Plymouth gives you a swept-back windshield design, with far more visibility than in other cars in the low-price 3.

LARGEST SIZE Biggest, longest, lowest car of the low-price 3, Plymouth is actually larger than some high-price cars! To you this means more roominess, more comfort inside, and the smooth, steady ride only a big car can give. Plymouth is priced for every pocket-book; 22 models in three great lines—the Belvedere, the Savoy, the Plaza.

SMOOTHEST RIDE Only a big car, like Plymouth, can give you a truly "big car" ride. This Plymouth's frame is longer, stronger; rear springs are wider; exclusive Oriflow shock absorbers have still more cushioning action. When you look at all 3 this year, you'll see why the big swing is to Plymouth! Come in today for your demonstration.

Best buy now; better trade-in, too

ST. STANISLAUS BASEBALL SQUAD STATES TWO TITLES WITH DISTRICT 8 CHAMPS

Biloxi's baseball squad has arranged for two contests with the St. Stanislaus Rockaways. The first is set for the Biloxi diamond April 14 and the return game will be at St. Stanislaus Stadium May 3.

Last year Biloxi completed the season with a 3-3 record and claimed the District 8 A-A title by defeating Petal in a playoff. The Indians were noosed out of the state tournament by the Jackson team.

GAME LAW VIOLATION FINES TOTAL \$1555 IN FEBRUARY

Fines against game law violators in Forrest, Harrison, Jackson and Pearl River counties totaled \$135 for the month of February, according to Wade Creek-

SPORTS VIEWS and REVIEWS

BY CHRISTOPHER BELL

The annual Brothers vs. Varsity baseball contest is slated Friday afternoon at St. Stanislaus Stadium.

Pitchers for the game have not been announced but it looks as if a pitching duel between Brother Godfrey and Larry Mathes might be in store.

The varsity nine will be out to avenge their loss to the Brothers last year.

—cpb—

Felix "Doc" Blanchard has accepted an invitation to the St. Stanislaus Alumni meeting to be held at the St. Charles Hotel Sunday, March 20. St. Stanislaus was graduated from the school and later played football with the Army grid team.

Wheeler last week won the state overall basketball championship by topping Clinton 67-63.

Coch L. C. Ladner's Kiln came into within an ace of claiming that honor. However, they were defeated in semi-final play of the state B-BB tournament by a surprisingly strong Puckett five.

But in consolation play defeated Walnut 62-56 after Walnut lost to Wheeler by 2 points in overtime play in the semi-finals.

Wheeler went on to win the class B-BB crown and then to take the overall state championship.

This year's Kiln Wildcats enjoyed the best basketball season in the history of the school. Out of over 500 B-BB schools in the state Kiln finished 3rd—and with the 1st place team, Wheeler, topping the A-AA title holder, it shows that the Wildcats are better than most of the state's A-AA schools.

It is also a safe statement that Wheeler can set down any Big Eight team, since this year's Big Eight (teen) squad didn't display much in basketball power.

Hancock County can well be proud of the Kiln basketball team and their coach.

QUOTAS FILLED BY JRC MEMBERS DELIVERED

Quotas filled by the Junior Red Cross Council members of Hancock County were delivered by Mrs. Phillip Foote, Chairman, at the quarterly meeting of the South Mississippi Volunteer Service Council of the American Red Cross, held March 11.

These quotas were filled for the V A Hospital in Gulfport, the Biloxi VA Hospital and the Keasler AFB Hospital. Quotas included 100 playing cards, 100 phonograph records, 500 magazines, 50 pocket editions, remnants of materials and scrap wood for work in occupational therapy shops and \$20 for the purchase of ship and car model building sets.

Junior Red Cross members have taken on quotas for the next quarter. In addition they will sponsor a ward party in the Biloxi VA hospital and will give

LOGTOWN Locals

BY CLAUDIA MURPHY

The Logtown School boys and girls basketball team captured the first place trophies in the Hancock County tournament, which was held in the Bay High gymnasium last week. Three players, Melvin Barnes, Geraldine Dawsey and Laura Elma Kennedy made the all tournament team and will be awarded individual trophies. Good work boys and girls, congratulations.

Herbert Wilkinson Sr. of Pascagoula spent several days with his mother, Mrs. Jessie Wilkinson and son, Herbert Wilkinson Jr.

Miss Joyce Miller of New Orleans spent the week end with her parents, Mr. and Mrs. Carl Miller.

Guests of W. W. McArthur Sunday were Mr. and Mrs. Chris Givens and daughter Patty of New Orleans.

A variety and lady minstrel show will be given at the St. Joseph Hall Sunday, March 20 at 3 p.m. by the Ladies of the Sacred Heart Parish of New Orleans.

The students home from college this week end were Marcie Furey, who is in training at the Baptist Hospital in New Orleans, Dannie Strahan of Pearl River Jr. College and Rupert Brelaud of Mississippi Southern.

Guests of Mr. and Mrs. Alphonse Smith Sunday were Mr. and Mrs. Charles Bayet and children, Sharlott Virginia and Diane, of Bogalusa.

Ray Dawsey who is employed by Edwards Transportation Co. has been spending a week with his parents, Mr. and Mrs. Cliff Dawsey.

Guests of the Robe Murphys Sunday were Mr. and Mrs. Marvin Anderson and son, Jimmy, of New Orleans.

AROUND THE CAMPUS

ST. STANISLAUS

The St. Stanislaus Alumni Association will hold its annual banquet at the St. Charles Hotel Sunday, March 20th beginning at 5:30 p.m.

So far quite a large number of the Alumni from Bay St. Louis will be in attendance. Reservations are still available, and any who wish to go may contact Brother Edmund, SC Secretary either through the mail or phoning 72.

Reservations will be closed Friday.

Captain Felix "Doc" Blanchard has signified his intention of being on hand unless some unexpected duty arises at the week end.

Lee C. Grevenberg, Class of 1888 and a former resident of Bay St. Louis will be the featured speaker for the "Zerk" Banquet.

Mr. Grevenberg is now in Cleveland, Ohio, on his hands and feet, and is a regular.

PIOLOGIST TO BE HERE

Alec R. Bumsted, Duck Pilogist, Game and Fish Commission of Jackson, will be in Hancock County Tuesday, Mar. 22.

Bumsted will meet with James L. Crump at his home, Holly Bluff on the Jordan, where they will discuss promoting waterfowl habitat in this area.

Jack Ladner, president of the local Hunters and Fishermen Association, will meet with Crump and Bumsted. Crump has been actively working on this project with the State Game Commission.

WHEELER, AGRICOLA WIN STATE CAGE CHAMPIONSHIP

Wheeler, Mississippi class B-BB state boys champions, won the state overall basketball title Friday night at Jackson with an 87-62 victory over Clinton, title holders in the A-AA Class.

Behind the sharpshooting of all-state Jerry Keeton, Wheeler possessed a 20 point advantage by halftime.

57th Triumph

The triumph was the 57th of the season, against two setbacks for Wheeler. Two weeks ago Wheeler captured that state class B-BB tournament by defeating Puckett 57-49 in the finals. In the tourney's consolation contest the Kiln Wildcats, District 8 champs, claimed third place by edging Walnut 52-46.

District 8 girls, Agricola, slipped past the Forrest sextet in a last quarter rally, taking the game 71-66.

Undefeated This Year

Agricola won the state class B-BB trophy two weeks ago, and ended their 1954-55 basketball season with a 46-0 record. Last year they finished second in class B-BB.

Star forward Frances Cooley collected 40 points to lead the scoring department for Agricola.

Forrest earlier claimed the class A-AA title by defeating Tupelo 66-35 in the finals.

1954 Greatest Year Of Last Seven For Telephone Expansion In State

JACKSON—Telephone expansion and improvement in Mississippi made great strides ahead during 1954—in fact, it was the greatest year for telephone development in the State since 1948. This was pointed out by Henry Grady Turner, General Manager for the Southern Bell Telephone and Telegraph Company in Mississippi, who stated there was a net gain of over 17,000 telephones in the State during the past year.

According to Mr. Turner this year the total number of Southern Bell telephones in the State to more than 275,000 as of December 31, 1954, or 2 1/2 times the 115,876 telephones serving Mississippians when the company's stepped-up program of expansion and improvement began in December, 1948.

"Our total expenditure for all types of plants in Mississippi during 1954," Mr. Turner stated, "exceeded 11 1/2 million dollars. Most of this was construction and improvement money which had to be secured from people with dollars they were willing to invest in telephone property."

"In adding those 17,000 new telephones last year," Mr. Turner continued, "we installed an average of 350 more telephones monthly than we installed in 1953, which was a good year."

Then he listed 1830 more "orders during the average month of 1954 than during the average month of 1953."

"In addition, the telephone company in Mississippi last year required many thousands of man-hours of labor as well as vast quantities of material of all kinds."

Among the major items added were 14,000 exchange poles, miles of aerial cable, 92 miles of underground cable and 42,000 miles of exchange aerial wire. In addition, 648 additional miles of right-of-way were contracted for and cleared to make way for new telephone lines.

Dial Conversions

New exchange buildings were built at various points in the State and fitted with modern dial equipment. Among the more important of these were in the communities of Gulfport and A. W. Haysboro, Huleville and Drew where improvements are being completed to provide modern dial telephone service for over 5000 subscribers.

Work was started too on dial conversions at Clarksdale, Lumberton, Tylertown and other places where the new facilities will be put in service this year.

At Gulfport and Monticello, modern exchange equipment is being installed to take care of the growing need. New facilities were completed at McComb and other exchanges, being established at Brookhaven.

New Numbering System

A new numbering system, known as the 2-5 system was introduced at several points in the State last year and will be extended to other cities early this year. The 2-5 system, which makes use of the first two letters of an office name, such as Main and five numerals for dialing, is part of a nationwide numbering system designed to pave the way for continuing improvements in long-distance service.

"This new numbering plan is being used in connection with the new exchange at Clarksdale, to which 2222 telephones are connected. Other places where it has been assigned are Wiggins, where 2124 telephones, Drewville, 1222 and Huleville, with 2222."

The system was extended also during the year to several other communities where it was being used by independent telephone companies, such as Vicksburg, Vicksburg, Olive Branch, Calhoun, and other places, where it was being used by independent telephone companies.

New Mainlines

Introduced in the State during 1954 was a new 4-pole wire known as "Main Distribution Wire." This wire, which is made of non-corrosive material, will be used in place of the old 2-pole wire.

Adding to Mississippi's Prosperity

By the end of 1954, there were 4500 employees of the telephone company in Mississippi. These employees and their families would make a good-sized town. These employees received \$14,968,000 in salaries and wages during 1954 and most of this sum was spent in the State and around it. This money went to rent, food, clothing, services of all kinds and other items.

This is in addition to the 11 1/2 million dollars expended by Southern Bell for new construction in the State, and large sums spent for materials used in repairs and maintenance of telephone lines and exchange equipment in the State.

Most of this construction money and maintenance money, as well, was spent in Mississippi, making a big addition to the State's growing prosperity.

During 1954, taxes per telephone in Mississippi averaged \$2.03 per month. This does not include the excise taxes which the company is required to collect from customers and pay to government authorities. These taxes help to support schools, highways, law enforcement and activities of the city, county and state government.

TIGER TALES

The Fourth and Fifth and Special Class wish to thank the parents for their cooperation in helping with the float Norway to enter in Mardi Gras Parade. Especially do we thank Mr. and Mrs. L. S. Fahlman for their cooperation, and Mr. J. Compretta who furnished the tractor and towed our float.

The girls of the Special Class room visited with their teacher Mrs. Hulsey, at her home in Gulfport Monday night. They enjoyed a picnic supper and TV show. They visited the small craft harbor and different school buildings in Gulfport.

Next week the boys will spend the night in Gulfport.

Joseph Stein has come to the third Grade this week. He transferred from Brookhaven. We are happy to have him as a member of our class.

4th RALLY

Third Annual Hancock County 4th Club Rally will be held at the A & C Theatre Friday, Mar. 23. The program will begin at 8 a.m. with a parade through town. The parade will begin at the Bay St. Louis Youth Center, proceed down Main Street to Main, down Main to N. Beach and up N. Beach to the 4th Club.

The program at the theatre will consist of a talent show with helpings from all the public schools of the county competing. After the talent show the group will be entertained with a free movie, complimentary of the management of the theatre.

Approximately 300 Hancock County 4th Club members are expected to attend. Parents and friends of 4th are invited to attend the program.

A ROLLING STONE gathers no moss

There's no "moss" growing on the natural gas industry, which is now sixth in the nation in size of investment. As a matter of fact, the dependable service you enjoy today is the result of investment and planning by the gas industry which began a good many years ago. It didn't "just happen."

Key to dependable service is the producer, whose never-ending search for additional supplies of gas is your assurance of gas for years to come. Anything which tends to discourage or interrupt this search is contrary to the best public interest for
